

portrenfrew.com Newsletter December 2019

Dear Port Renfrew Business Owner

Your are receiving this email because of your relationship as a business owner in Port Renfrew. Thank you for your interest in receiving our Bi-Monthly Newsletter from us. You may un-subscribe any time if you no longer wish to be on our mailing list.

We provide in this newsletter how 5G technology will effect us now and into the future. The links here provide condensed information & will save you research time, address some issues, and help understand 5G.

The 5G appeal

Scientists and doctors call for a moratorium on the roll-out of 5G. 5G will substantially increase exposure to radiofrequency electromagnetic fields RF-EMF, that has been proven to be harmful for humans and the environment.

Huawei already has extensive relationships with Canadian institutions of higher learning, including a promised \$50-million to 13 universities to develop 5G technology.

“Resolution 1815 of the Council of Europe”

The scientists urge the EU to follow Resolution 1815 of the Council of Europe , asking for an independent task force to reassess the health effects.

United Nations Security Council Resolution 1815 was unanimously adopted on 2 June 2008

[MADRID INTERNATIONAL SCIENTIFIC DECLARATION .pdf](#)

OH!, devices like your smartphone that support 4G-LTE can't be upgraded by switching out hardware — you'll need to buy a new phone.

The 5 G system will use a phased array transmission system where the transmission from a mast will be targeted using a process called Beamforming , very similar to H.A.A.R.P arrays

What is Beamforming?

What countries have banned 5G or higher for its RF/EMF hazards to life on Earth (destroying nature by electrosmog)?

Why 5G Cell Towers Are More Dangerous - Get The Facts!

Experts estimate that by next year virtually every country on the globe will have embraced this technology.

For the last ten years YOU, your neighbours, your family, your kids and even your PETS have been SPIED ON by a tiny clique of inter-connected CRIMINAL ORGANISATIONS who pose as online social networks, or pretend to be innocent online auction houses, or pretend to be just online search engines... The reality is that the bosses of these criminal organisations are CRIMINALS because all along they have been violating INTERNATIONAL LAW

?All 200 or so nations which signed the DECLARATION OF HUMAN RIGHTS supposedly allow everyone to have:

1. FREEDOM OF OPINION - even if you publish something in bad taste or offensive - the law provides you with protection to publish your opinions

2. PRIVACY - yes, your bank account, your date of birth, your real name, what you do at home alone, what job you have, where you went last night, where you had your lunch, what you ate for dinner, who you know, what friends do you have and where you live - all this is PRIVATE DATA which is being sucked out of your phone, your browser, even your watch every second of every day

The internationally recognised Human Rights are actually LAWS - such as Human Right number 26 which guarantees your privacy - yes, PRIVACY is protected by international law...

...However, these so called DOT COM billionaires have broken the law, violated your privacy, pirated your copyrights, and now, today, have the ability to hack into your refrigerator - yes, your refrigerator...
Welcome to 5G.

Richard Gillett studied Computer Based Information Systems (CBIS) at the University of Victoria, BC, Canada in the late 1990s. He wrote columns for Duncan's [Cowichan](#) Citizen newspaper for a year, titled "Internet Cyber Security", and taught Basic Computer Skills in an Adult Business Education Program for Community Futures Development at [Malaspina College](#) in early 2000. He has been active in web development and Internet technologies for over twenty five years.

READER NOTICE

With all the disinformation out there, how do I validate the information that I'm giving you in my reports? I do a lot of research and cross reference. I use science first for the facts and then look where the money is. I present the information from as many responsible sources found on the Internet. This information is just to help save you a lot of time surfing, but does not replace your responsibility to do your own homework and verification.
